

Network connectivity: Claims and discussion

I. Mark an X next to the claims that are true under the picture.

It's easy to move from place to place while using mobile data.

Using mobile data is always free.

You can use a wireless network for many different household appliances and devices.

A wireless network connection works without a router.

You do not require a cable for a wired connection.

A wired network connection is typically the fastest and most reliable connection.

2. What would your day look like if you had no access to the internet for the day?
Draw what comes to mind following the prompts. Let the others know what you've drawn.

This would be the most fun thing to do at home.

student answer

This would be the most fun thing to do at school.
